

POWER IN A SONG – Rob Mitchell

|| guitar riff w drums 4 bars || E- | D | C | C ||

Verse 1:

There's a song you can sing  
When you do, you bring glory to the King  
Then this space and this time and the world are all in line  
When the words sung feel new, then the chorus rings in true  
Then your faith and your life are forever intertwined

Chorus:

There is power in a song, especially when you sing along  
The heavens open up and hell is shut below  
Your voice makes much more of a difference than you know

Verse 2:

There's a picture in your mind of our God  
Removed from our idea of time  
Then you smile and you're glad for the blessings yet to have

Chorus:

There is power in a song, especially when you sing along  
The heavens open up and hell is shut below  
Your voice makes much more of a difference than you know
